

Birthday party in class....

The anniversary of your child is an important event!

If you wish, we may celebrate it in the class.

To optimize this time, here's a "birthday guide."

1 / Allergies: they are different but mainly they concern nuts.

Do not offer cakes comprising: peanuts, almonds, all kind of nuts, pistachios etc.

2 / Date, organization: Advise the teacher 48 hours in advance.

Place the cake and other equipment at the entrance in the morning.

3 / Kindergarten: favoring individual portions:

eg : fruit juice « briquettes », cupcakes etc. This is also ok in primary.

4 / Cake: If you make the choice of a large cake, please avoid foams, creams etc. difficult to serve. Provide a knife or better still pre-cut the cake (allow a few additional units, children are excited to offer it to their classmates.

5 / Hardware: please provide the following ...

- Candles, lighters
- Plates and plastic cups (no paper cups that tend to "leak").
- Towels
- Plastic spoons
- For drinks, promote one kind, not bubbly (eg orange juice)

Thank you for your help !
